

A DAY OF FISHING IN CHORRILLOS

We went 3 friends to fish to chorrillos, one day before we bought everything we needed like fishing line, bait, among others. We woke up excited as never before because it was the first time we went fishing.

We were going to go the 3 together to the meter but as soon as one arrived they left and they forgot about me, I reach them later taking another meter. We started fishing, for an hour we did not fish anything, my friend tonny fished a shoe, my friend Victor fished algae and I fished a socks.

We did not fish anything, a lady saw us with a black bag, she thought we had fish, but when she opened the black bag there was shell of open dish, what a shame. We left disappointed to eat near the pier of chorrillos, we also had shame here. My two friends asked food without reading the letter and when the bill came they did not know how to pay.

Lucky that if I read the letter and knew how much to spend, in the end I ended up paying the bill of my friends.
